### For the Gibson Girl The New Brinkley Girl

It is an error to say that a pretty foot is always small, and a worse error to say that a small foot is always pretty./

A normal foot, be it well and individually shod, will do honor to its owner, whether that foot is large or small.

As is already well known, Patrician Shoes are made equally attractive in the large and the small sizes, and . the tall, slender Gibson girl has no more difficulty in fitting her long, narrow, aristocratic foot than the dainty Brinkley girl has in obtaining the slender ankle fit and short instep. Both types of women secure Patrician Shoes exactly suited to their style and equally beautiful, displaying the inimitable grace of the one type and the irresistible piquancy of the other.
